

Educational Services

GSA COURSE LISTING

GSA Schedule Contract courses are instructor led. Depending upon the client's needs, they may be conducted at a single site, or through the use of client-provided electronic media, may be broadcast to multiple students sites from a single instructor site. Spann & Associates, Inc. supports interactive, blended e-learning instructional techniques. For more information about a particular course or to contact us, visit our website at: <http://www.cyberspann.com>

Applications & Development

Course Title	Course #
Microsoft Office XP	1001a
Supporting Systems Management Server	8547k
Microsoft Project	9460f
ASP Programming	9505a
Visual Basic Programming	9505b
HTML – Advanced	9505g
HTML	9505h
Microsoft Internet Information Server	9505i
JAVA	9505j
Javascript	9505l
XML	9505x
Microsoft Office 2000	9533a
Microsoft Office 2003	6121
Exchange 2000 – Updating Support Skills	9546x
Exchange 2003	6126
System Administration for SQL Server	9547m
Supporting Routing and Remote Access Service	9547t
Oracle Introduction for Application Developers	9581
Oracle, SQL, and SQL*PLUS	9581a
Oracle PL/SQL	9581b
Oracle Database Administration & Perf. Tuning	9582
Oracle Advanced Administration	9583
Oracle Application Development Workshop	9586
Oracle Database Architecture & Administration	9587a
Oracle Database Administration	9587b
Oracle Developer – 2000	9587d
Quest CPE	6101
Quest Auditing	6106
Quest Windows Server	6111
Team Building Skills	6116

Networking & Communications

Course Title	Course #
Structured (Universal) Wiring	1002a
Designing and Deploying an Intranet	1002b
Advanced Data Communications & Network Design	8723a
LAN and Fiber Optics: Technologies & Applications	8723d
Introduction to Data Communications	6301
Survey of Telecommunications	9401
Survey of Telecommunications - IVT	IVT01
Protocols and Standards	9402b
Protocols and Standards - IVT	IVT02
Local Area Networking	9402c
Advanced Data Communications Internetworking	9402f
Voice Switching Systems	9403b
Call Distribution	9403d
LAN Concepts	9417
LAN Concepts – IVT	IVT03
Fiber Optics	9418
Centralized Help Desk	9419
TCP/IP	9424
Network Administration	9533
DNS, BIND & IP Management	9546d
DDNS	6306
IPv6	6311
Data Communication Concepts	6316
Voice over IP (VoIP)	6321
Introduction to Information Technology	6326
Data/Voice Communications & Networking	6331
Data/Voice Communications & Networking - IVT	IVT04

Systems / Troubleshooting

Course Title	Course #
Basic UNIX Administration	8723c
Windows 2000/2003 Deployment Planning	9547x
Windows 2000 – Updating Support Skills	9547s
Linux	9558l
SCO Open Server Release V Network Administration	9559d
SCO Open Server Release V Administration - Special	9559c
SCO Open Server Release V Administration	9559b
SCO Open Server Release V Advanced Administration	9559e
Implementing & Supporting Windows XP	6201
Windows Server 2003	6206
Active Directory	6211
Implementing, Maintaining & Managing a 2003 Server	6216
Windows Server 2003 File, Print and Web Services	6221
UNIX Tools and Testing	6251
TROUBLESHOOTING	
Network Analysis & Troubleshooting	9402e
Troubleshooting with a Packet Analyzer	9428x
Workstation Troubleshooting	6501
Advanced PC Troubleshooting in the Windows XP	6506

Security

Course Title	Course #
Communications Security	1002c
Securing Communications and Networks	1002d
Information Warfare	1002e
Certified Information System Security Professional (CISSP)pre-exam training course [Orlando location]	1002f
Certified Information System Security Professional (CISSP)CPE training courses [Orlando location]	1002g
LAN Security	9541c
Internet and Intranet System Security	9541d
Firewalls and Internet Security	9541f
Secure Data Destruction	9541g
Windows 2000 Security	9542k
Analyzing & Reviewing Security Logs	9542l
Windows NT Security	9542n
Windows XP Security	6401
Windows Server 2003 Security	6406
Security Certification of Systems and Applications	9542r
Security Trends in Technology	9542t
Symantec Anti-Virus / Client Security Overview	6411
Symantec Anti-Virus / Client Security – IVT	IVT05
Security Awareness Seminar	6421
Hacking: A Security Experts Guide to Hacking	6431
Symantec Anti-Virus / Client Security (SAV/SCS)	6426
